

# Laboratories Follow-up

Nile Higher Institute For Engineering & Technology

2021-2022

## Summary

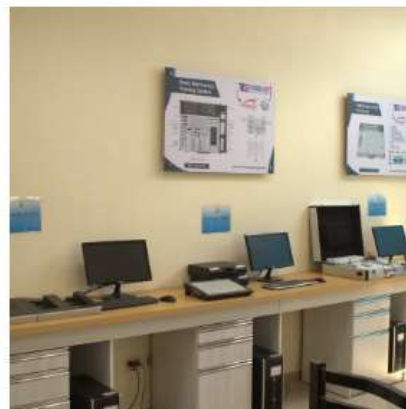

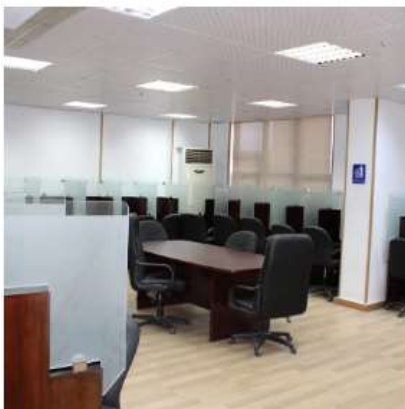

As part of the Communications and Electronics Engineering Program's continuous improvement, the department has made updates in the laboratories for the academic year 2021-2022 as follows:

1. Appointment of specialized laboratory engineers.
2. A unified QR system to communicate with laboratories' Engineers.
3. Comprehensive inventory of laboratories.
4. A library for each lab's projects.
5. Identification Monitoring Sheet for each device.
6. Illustrating Banners for Laboratory Experiments.
